

Law X-ray

Choose any definition or provision of Egypt's 2023 law on dangerous animals to see the text it shares with the Emirati law of 2016 and the Bahraini law of 2026. The laws are shown in their original Arabic. Shared words are marked in red.

Definitions Provisions

Dangerous animals

الحيوانات الخطرة

Keeper of the animal

حائز الحيوان

Trade

التداول

Breeding or birth

الإكثار أو الولادة

Stray animal

الحيوان الضال

Abandoned animal

الحيوان المتروك

The paper starts here

Dogs

الكلاب

Person accompanying a dog

مصطحب الكلب

Animal parks

المتنزهات الحيوانية

Competent authority

السلطة المختصة

Competent minister

الوزير المختص

How the tool works

A word in red belongs to a sequence of five words that appears, word for word, in both texts. The marks are computed from the official Arabic texts after removing vowel marks and punctuation and treating different spellings of the same letter as one letter, by the method of Working Paper No. 2.

Qatar's law of 2019, drafted separately, shares about 1 percent with each of the other laws and serves as the baseline.
